

The Most Practical Project Management Software

What is Wrike?

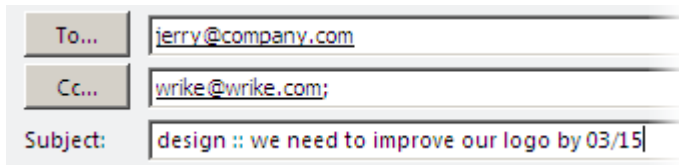

Wrike is an integrated, online project management solution that helps you manage projects, teams and businesses. By turning email overload into well-organized plans on the Web, Wrike makes your organization more efficient, transparent and agile. Wrike is collaborative, Web-based, easy-to-use and inexpensive, so you can roll it out company-wide.

Why Wrike?

Thousands of our customers recognize Wrike as the most practical project management software.

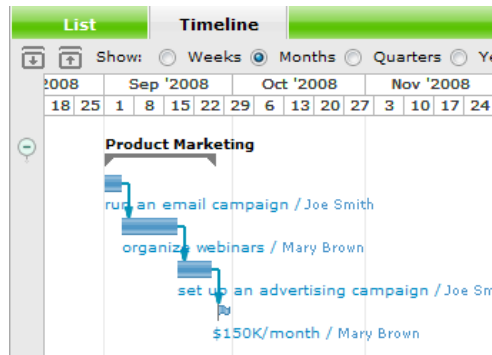

- 1. Makes you very efficient, thanks to Wrike's market leading Intelligent Email Engine™ that works seamlessly with your emails.

“ My favorite feature of this program is the ability to use Email as a project management method - by having the ability to turn Email not only into tasks but into Timelines - saving time and thus saving money.”

– Ronda Roberts, Bright Hub

- 2. Gives you a complete and up-to-date picture out of many projects, plans and emails using Wrike's unique Flexible Structures™ and Dynamic Timeline™.

“ We use Wrike to manage all aspects of our business, including video editing, production, author timelines, CRM - whatever. Wrike provided us with an excellent way to track our multiple short-term projects in one place. As the head of the company I can trace my team's collaboration on each task and at the same time view my whole business.”

– Scott Whigham, Founder, LearnItFirst.com

“ Wrike combines the flexibility and spontaneity of collaborative software with the ease of use and structural rigor of traditional e-mail to help organizations manage projects efficiently while allowing a maximum number of team members to contribute to a project's successful completion.”

– Debra Donston, eWeek.com

- 3. Fits your budget with powerful features, packaged as an easy-to use, inexpensive Software as a Service.

“ Our on-time delivery rate and customer satisfaction is close to 95%, since we are kept informed about our tasks/deadlines each day via the daily reminder email and online dashboard. This has made a significant contribution to our team's productivity and level of support. Wrike lets us spend less time on project management and more time on providing strategic marketing services to our internal clients.”

– Dan Stevens, Director of Marketing Services, Capgemini

Benefits for Executives

Wrike bridges the gap between the strategic plans and everyday jobs of your employees. Wrike's unique features build you a complete picture of your business from separate parts, such as projects, employees' to-do lists and departments' quarterly plans. The picture is updated in real time by your managers and employees as they email each other and collaborate. You get a unique control of operations and clear visibility of your business.

- Multiple projects are well-organized in one account.
- You get better transparency of operations.
- Daily jobs of your employees are aligned with your strategic plan.
- Organizational efficiency increases.
- You have more time for execution.

“The challenge is to focus on the next step while keeping an eye on the endpoint. Wrike is the only program with enough flexibility to allow us to correct our balance while prodding us forward,”

– Andrew Svitek, founder of Svitek Law Group, LLC

Benefits for Project Managers

Wrike does a lot of routine work for you. It creates tasks and builds timelines from your emails, reminds your team members about tasks and releases you from updating the plan.

When it comes to planning and managing, Wrike's Flexible Structures™ is the best solution. They enable you to create a special project view for each team and easily merge different views into a bigger picture. Wrike gives you real time visibility into the project status and activities of your team members. Wrike's Flexible Structures™ provide powerful planning, reporting and customization capabilities.

- You can create tasks from emails.
- Your emails are automatically turned into neat Timelines.
- You get a clear project picture.
- You can keep your team on the same page.
- You save time on routine jobs.
- You can track time spent on tasks.

“Wrike offers a full-featured, Web-based project management service.”

– Richard Morochove, PCWorld

Benefits for Project Teams

Wrike turns your everyday emails into Web-based collaboration to make you more productive. Wrike's Intelligent Email Engine™ creates online shared space from emails that you send to your peers. Together, you can share and discuss files, organize tasks the way you like. Wrike reminds you about overdue tasks and notifies you about changes in the workspace. It is very easy to use Wrike because the Intelligent Email Engine™ works with any email software, including BlackBerry, Web-based email and all email clients.

“I must comment and commend the Wrike Team for being so responsive to the needs of its clients. I continue to recommend Wrike to my friends, and colleagues. Keep up the great work!”

– Brad O'Connor, Coastal Inspection Services Inc.
